

Infection Prevention & Control

E-Learning

This E-Learning training aims to reduce infection and reduce outbreaks within the workplace.

30 minutes

Online Learning

Institution of Occupational
Safety and Health

About the course

This online training teaches delegates about what infections are, where they come from and how to prevent them. Additionally, it gives them a better understanding about personal hygiene and the correct hygiene practises to reduce infection.

Available in 41 languages. Machine translated* content is included and includes navigation, transcripts and test questions.

*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

Who should attend

Regardless of what industry you operate in, infection prevention is incredibly important for learners to understand. It is essential that staff know the risks, how to stay safe, and how to keep themselves and everyone around them free of infection.

Course syllabus

The course modules cover:

- Infections
- The Chain of Infection
- Hygiene

Certification

Delegates will receive a HSS printable certificate in Infection Prevention & Control upon completion of the course.

This course is approved and accredited by IOSH & Skills for Care.
