

Working at Height

E-Learning

This course provides training in how to safely work at height within their workplace.

35 minutes

Online Learning

Institution of Occupational
Safety and Health

About the course

This online training aims to teach delegates about their legal responsibilities when working from height, and what their employer is responsible for. Additionally, the course seeks to help delegates to understand the risks associated with working at height and how you can prevent accidents from happening.

Available in over 35 languages

Our courses are machine translated* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

Who should attend

This course is suitable for delegates who work from height within their workplaces.

As the leading cause of death in UK workplaces, falls from height are accidents that can be avoided if proper health & safety practices are strictly followed. It is essential that those who work from height, and those who supervise it, understand how to prevent accidents from happening.

Course syllabus

The course modules cover:

- Working at height
- The risks
- Choosing equipment.

Certification

Delegates will receive a HSS printable certificate in Working at Height upon completion of the course.

This course is approved and accredited by IOSH.
