

Risk Assessments

E-Learning

This course provides delegates with training in how and when to produce risk assessments.

35 minutes

Online Learning

Institution of Occupational
Safety and Health

About the course

Risk assessments are essential for ensuring any incidents that have previously occurred do not occur again. Organisations must undertake risk assessments to show their commitment to The Management of Health and Safety at Work Regulations 1999.

This online training course teaches delegates about the 5 steps of a risk assessment, as well as how to create a plan of action for the hazard you find. Additionally, this course aims to teach delegates when they should fill out a risk assessment and when they are not necessary.

Available in over 35 languages

Our courses are machine translated* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

Who should attend

This course is suitable for delegates who are required to undertake risk assessments at work.

Course syllabus

The course modules cover:

- Why Assess Risks?
- When Should I Assess Risks?
- The 5 Steps to Risk Assessment
- Risk Assessment Tool.

Certification

Delegates will receive a HSS printable certificate in Risk Assessments upon completion of the course.

This course is approved and accredited by IOSH.
